COMP90024 Cluster and Cloud Computing Twitter Data Harvesting and Analysis Assignment 2 Report

Team 48

Arnav Garg (Student ID: 1248298)
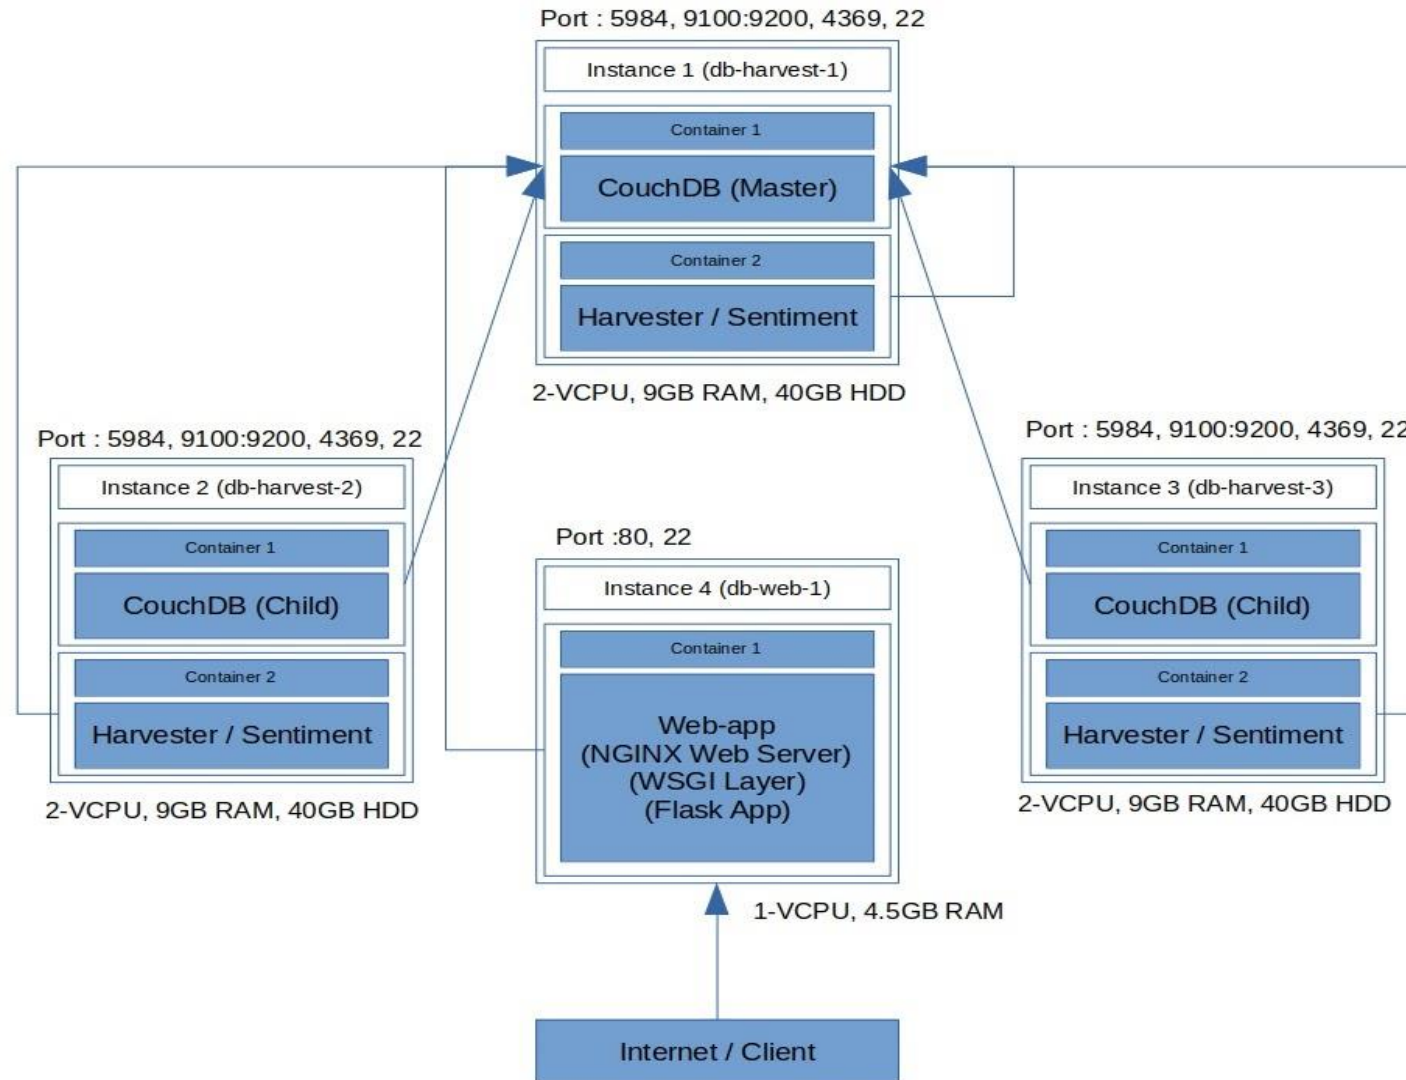

Piyush Bhandula (Student ID: 1163716)

Gurkirat Singh Chohan (Student ID: 1226595)

Vishnu Priya G (Student ID: 1230719)
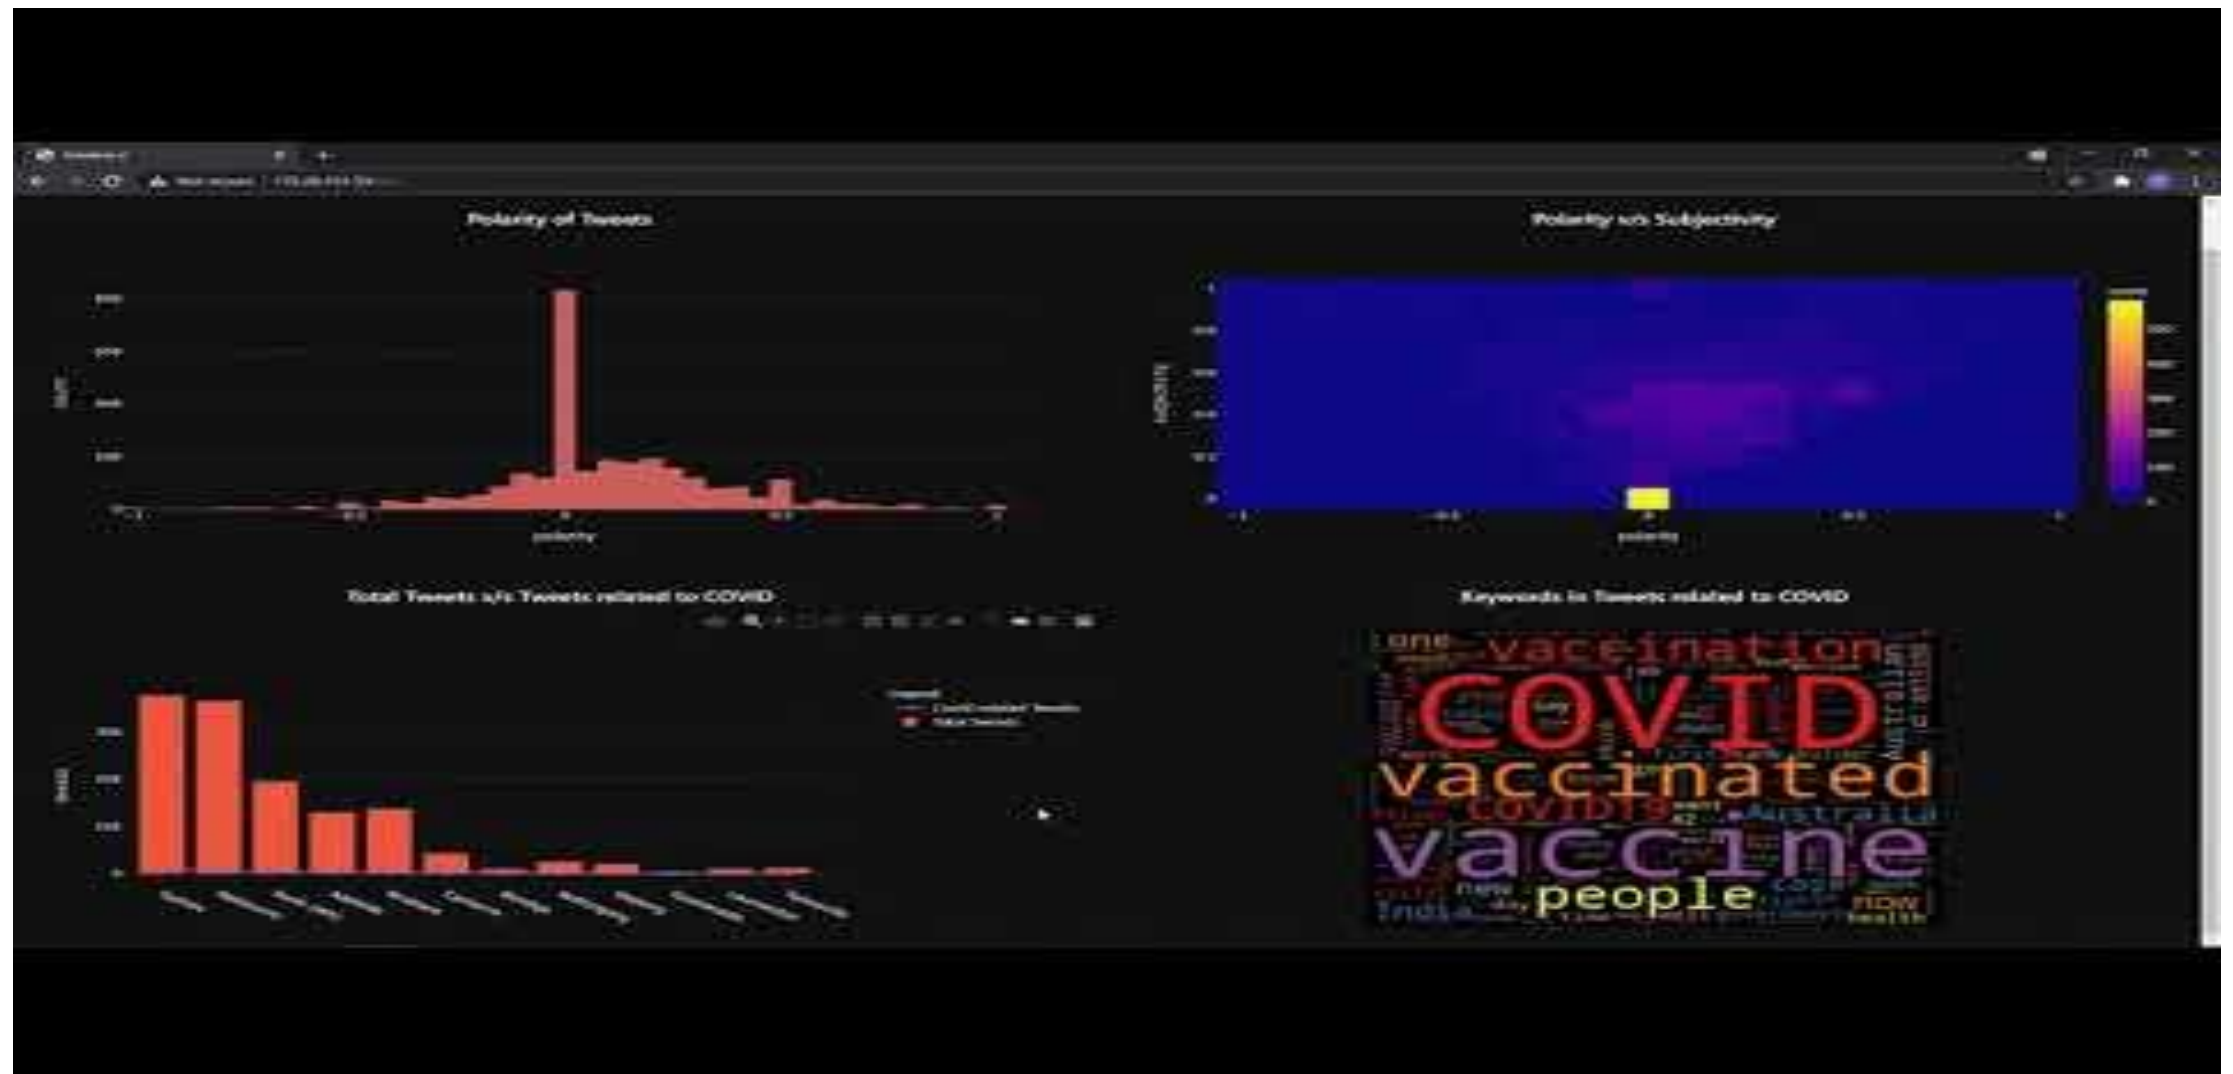

Jay Dave (Student ID: 1175625)

Architecture diagram

Scenarios

- Scenario 1
  - This provides a general overview of life in Australia, covering a wider range of topics from political party preference to the most frequently used hashtags in tweets.

- Scenario 2
  - Analysis was performed on tweets relating to Covid-19 to see how people are feeling with regards to the ongoing pandemic.

- Scenario 3
  - We delve into unemployment in Australia and its possible correlation with education levels. The analysis for this scenario was performed on a subset of tweets related to work and education.
